

Proposed Programs and Policies

Programs

PROG-1
Curve Signing Program

- Develop a structured program to systematically sign curves on county roads.

PROG-2
Shoulder Widening Program

- Develop a structured program to systematically widen shoulders on county roads.

PROG-3
Passing Zone Review Program

- Review passing zones for compliance with the Manual on Uniform Traffic Control Devices and make necessary adjustments.

PROG-4
Roadside Management and Vegetation Control Program

- Develop a program to address roadside maintenance and vegetation control.

PROG-5
Systemic Safety Program

- Develop data collection procedures for assessing the conditions of roadway elements (signs, striping, vegetation, etc.) during regular maintenance activities.

PROG-6
Annual Crash Data Review Program

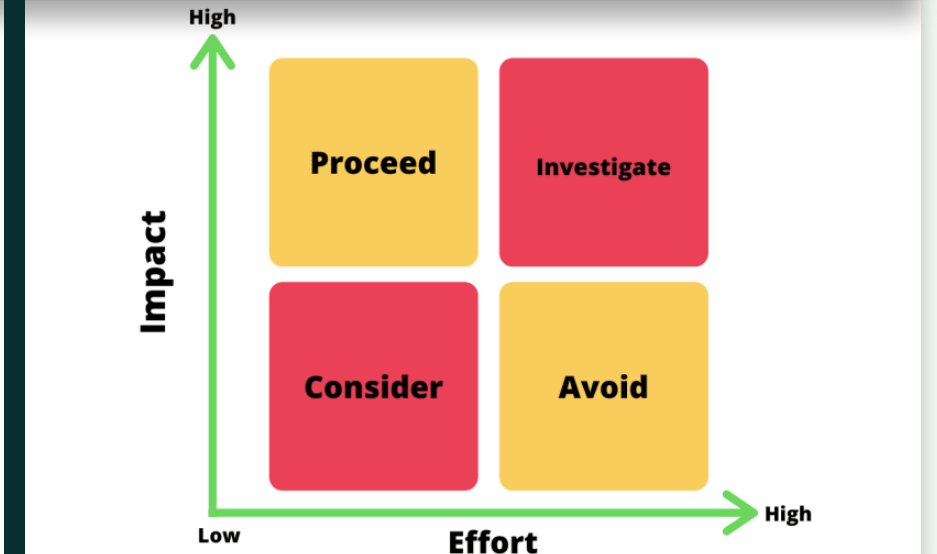

- Develop a procedure for conducting annual crash data reviews to inform proactive safety improvements.

PROG-7
Driver Age Programs

- Promote Parent-Teen Driving Agreements, educational materials for teen drivers/older adults, accessibility to driver's education, defensive driving courses, adaptive equipment for older adults, and enhanced license re-testing referral programs.

PROG-8
High Risk Behavior Programs

- Engage the community and local businesses in road safety initiatives through events, campaigns, peer-to-peer messaging, and incentive programs, alongside policy changes and educational efforts to promote safe driving practices.

Policies

POL-1
Snow Removal Priority Routes

- Develop and publish priority routes for snow removal.

POL-2
Street Lighting Standards

- Establish street lighting standards for county roadways and intersections.

POL-3
Cell Phone Policy

- Implement a county-wide ordinance prohibiting the use of handheld devices while driving.
